

Sprint 1 Review

Expectations

1. Completed use-cases covering broad use of the system.

Comments: Good coverage of entire system.

2. Created UML covering the system.

Comments: Well defined class diagram and sequence diagrams as well.

3. Version₀ project created in team repository, being worked by team following software dev standards, and deployed to AWS using Jenkins.

Comments: Base Project deployed using Jenkins

4. Demonstrated use of Jira.

Comments: Backlog had 8 items. Utilize JIRA more to have good work distribution.

Grade: A-
